Introducing the Prisme platform

The joint CIRAD/FVI platform, "Training, teaching and pedagogical innovation to share knowledge on Global Health and livestock management with the South", is developing an international training offer, particularly in Southern countries, drawing on the expertise of ENSV-FVI members and CIRAD research units.

This work is being carried out by France Vétérinaire International (ENSV-FVI) « École Nationale des Services Vétérinaires - France vétérinaire internationale » in collaboration with 4 CIRAD research units working on animal production and health:

Astre - Animals, Health, Territories, Risks and Ecosystems

Interrip - Host-Vector-Parasite-Environment Interactions in Neglected Tropical Diseases due to Trypanosomatids.

Isem - Montpellier Institute of Evolutionary Sciences

Selmet - Mediterranean and Tropical Livestock Systems

Tools and materials available

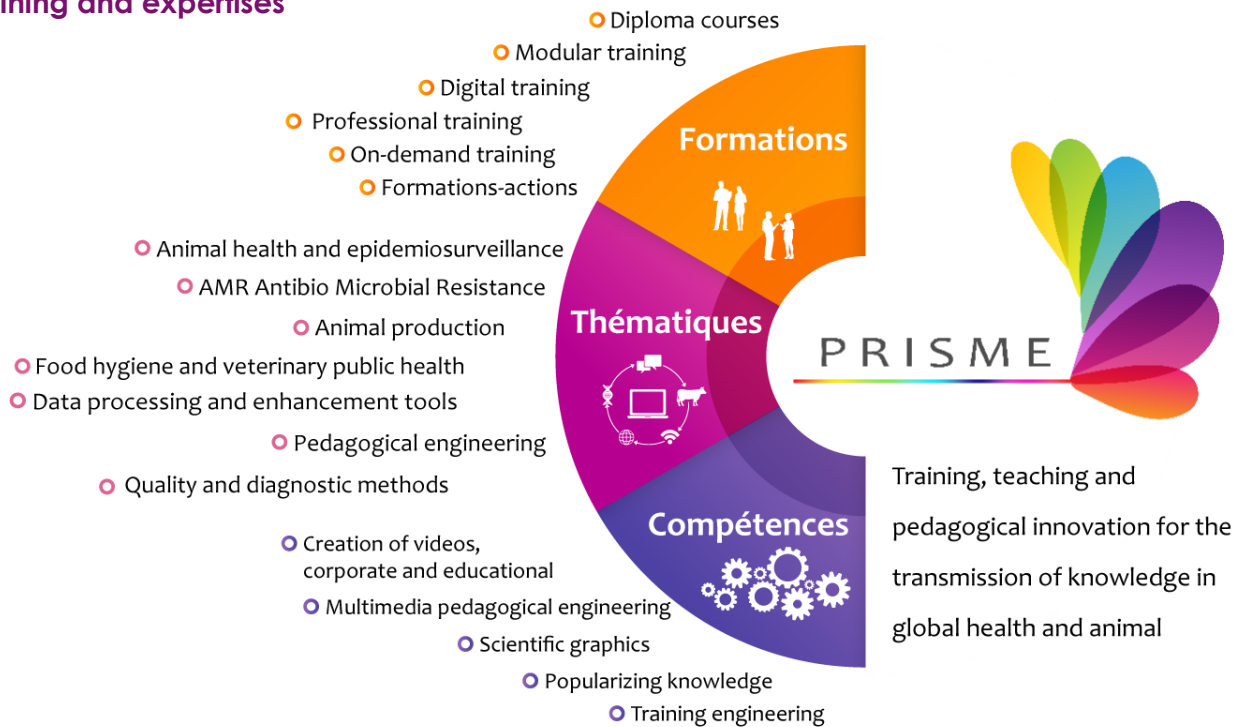

- 2 training rooms
- 1 computer room (22 computers)
- Videoconferencing equipment
- Interactive learning material
- Script writing software
- Animation and computer graphics software
- Content creation software in e-learning
- Publication software, site creation,...
- Distance Learning Platform (LMS)
- Audio and video capture set (cameras, editing station, drone)

Products and services

- Welcoming students from the North and South
- Reception of international delegations and Southern partners
- Supervision of field placements and internships in Southern countries
- Training engineering to set up international masters and customized training programs
- Organization of workshops, conferences, simulation exercises...
- Development of innovative training products (e-learning, MOOCs...)
- MUSC platform: production of teasers, educational films, video courses

Training and expertises

We also offer tailor-made courses in Montpellier or in your own country. Do not hesitate to contact us to build together trainings adapted to your needs, in French, English or Spanish.

Training courses are mainly organised at CIRAD's Baillarguet International Campus in Montpellier (France), but can also be delivered abroad.

They are mainly given in French, but sessions in English can be organised on request. The courses involve a large number of lecturers, with a significant contribution from scientific managers from CIRAD and its partners (members of ENSV-FVI, INRA, ENVA, ENVT, IRD, FAO, OMSA, GDS France, ANSES, etc.).

Cirad benefits from Qualiopi certification. Issued by Afnor, this official label attests to the quality of the professional training provided
