

The joint CIRAD/FVI platform, “Capacity Building for Livestock Management and Animal Health in the Global South”, is developing an international training offer, particularly in Southern countries, drawing on the expertise of FVI members and CIRAD research units.

This work is being carried out by France Vétérinaire International ([FVI](#)) in collaboration with 4 CIRAD research units working on animal production and health:

- ([Astre](#)) Animals, Health, Territories, Risks and Ecosystems
- ([Selmet](#)) Mediterranean and Tropical Livestock Systems
- ([Isem](#)) Montpellier Institute of Evolutionary Sciences
- ([INTERTRYP](#)) Host-Vector-Parasite-Environment Interactions in Neglected Tropical Diseases due to Trypanosomatids.

Training courses adapted to needs

Our degree and skills-training offer includes:

- ✓ first and second year Masters programs,
- ✓ 1 to 4 week module-based training courses,
- ✓ distance learning courses,
- ✓ customized training courses.

➤ *These products are built each year around animal production and health, and are oriented to countries in the southern hemisphere.*

Courses are mainly organized at CIRAD on the Baillarguet International Campus in Montpellier (France), but can be relocated abroad.

They are delivered primarily in French but sessions in English can be organized on request.

A large range of individuals are involved in the courses, with extensive contributions from senior scientists at CIRAD and its partners (members of FVI, INRA, ENVA, ENVIT, IRD, FAO, OIE, GDS, ANSES...).

Tools and materials available

- 2 training rooms
- 1 computer room (22 computers)
- Videoconferencing equipment
- Interactive learning material
- Script writing software
- Animation and computer graphics software
- Content creation software in e-learning
- Publication software, site creation,...
